

A Simple Beamer Presentation

Jongwook Choi

September 13, 2015

Introduction

About

Beamer is awesome!

About

Beamer is awesome!

Ta-da!

List

- ▶ Item Level 1
 - ▶ Item Level 2
 - ▶ Item Level 3

Mathematical expressions are shown in Roman style as

$$p(\theta \mid D) = \frac{p(D \mid \theta) \cdot p(\theta)}{p(D)}$$

rather than the (default) serif style.

Themes and Other Links

- ▶ List of available beamer themes [1].
- ▶ Beamer User Guide [2].
